BY CHANSTON & NORMAN, 127 THAMES STREET.

WEDNESDAY MORNING, MAY 21, 1851.

By We are happy to announce that the Proprietors of the Ocean, Bellevue and Artentic Houses have engaged the celebra - Germania Musical Society for their establishments during the coming snormer. These favorite unsicians have performed at the same Hotels during the last two summers. and have proved a very attractive feature in life. at Newport during the lashionable searon. As a Musicul Society they have ne cipial in the country, and they are leculiar lavorites wherever they go -So great is their popularity in Baltimore that the people of that city have employed them the last two winters to give a series of Concerts there, which have been attended by immensa crowds of the intelligence, beauty and lashion of that city. They have also given a very large number of Concerts all over the country and in Canada, and their success has been imprecedented. For the last two months they have been conployed as the Orchestra of Jenny Lind's Concerts, and not only Barnum, but the fair songstress herself, are both exceedingly anxious to retain them for the remainder of Jenny's Concerts in this country. But those who come to Newport regularly and who know how to appreciate excellent instrumental music. have insisted upon the Germanians coming to Newfort as usual, and the latter have finally consented to comply with their wishes. They will prrive about the 10th of July, and remain during the season.

DECIDEDLY RICH .- One of the Inthers of the Town, who may at almost any time be found within a mile of our office, while wandering about town, a few days since must seriously unpressed with the dignity of his office and the great respossibility attached thereto, and looking to see that alt was right and as it should be, within his parisdiction, discovered a smill-box in the window of a little toyshop. Upon the cover of this box was a lanciful picture of a female, whose drapery was arranged somewhat on the Parisian order. He stopped and gazed at it until his curiosity was gratified and his imagination surfeited, when it suddealy occurred to him that this might to gaze upon, or for juvenile fancies to Indulge in Consequently he hurried after the Chief of Police and commanded him to go and look at the picture, and decide whether or not it was allowable to be gazed at by the promiscuous crowd. So the Chief obeyed the mandate with all alacrity. He passed has-d uty along, came in hand, as cager for the pursuit as a pointer for game; some soid there had been a robbery, others a mob, while not a few thought it barely possible that a most foul and bloody murder had been committed. Directly the vigitant Chief arrived in front of the before-mentioned window. He paused and deliberately surveyed the picture on the snuff-box; but he was puzzled! Not knowing precisely what standard of modesty the fathers had established; or rather what would incet the approbation of him who gave the order for inspection, he coginated what decision to come to. He well knew that the picture rather pleased his own fancy, for it was well executed, and looked graciful and casy and, on the whole rather fascinating, -so much so, that it was comething of a privation for him to turn from it. After a while he tore his self away from the charm and re-"father" who ordered him there, that he thought if the dress around the neck had been even a very little higher, it most decidedly would have spoiled the effect of the picture .but that as it seemed rather to offend the eyes of the "father," if he, the said "father" would purchase and present is to him, the Chief of Police, it would be very acceptable, as he was a souff-taker. This was taxing the philanthropy of the "father" a little too closely, and he at once concluded that the picture was not so very bad after all; the scene closedly the "father" advising the Chic of Police to abandon snuff-taking, as a matter of conomy!

Good for Prestice .- The wag of the Lauisville Journal thus wittily accounte for Jenny Lind leaving that city, without dispensing her charitable gifts :

Sie went about Louisville, and seeing everybudy fat and well fed and happy, she put her purse in her pocket.— She saw no wretchedness and no indications of it here. We have no doubt that the contrast between the two (Cincinnati) cities struck her forcibly. We believe that Louisville is the only city that the "divine Jenny" ever visited in which she did not find some objects that appealed to her charity. She is right in believing that Louisville stands in no m veleving to at house it estates in no need of charity, as our people are the most comfortable people in the world, eating more good food, wearing more good clothes, and living in far better houses then any other people.

Changing a Name. - We copy part of the proceedings of the California Legislature, on the 22d of March, as report-

ed in the San Francisco Standard: In the Assembly a bill to change the name of " Eliho Ely " to " Hubdard C. M. Ely," was made the occasion of a deal of fun among the members; the House being in Committee of the Whole. Mr Richardson, of Maripusa, in the Chair. Mr Bradford moved that the word Ely be changed to Ulic. Lost. Mr Moore moved that after Hubbard the words " Julius Casar " be inserted. Much laughter. Mr Campbell moved to amend by adding after " Casar " the word Augustus. Increased laughter, Mr Moore accepted the amendment. Mr Cook moved as a substitute for all the names" Praise God Barchones." Mr Moore insisted on his amendment with the addition of the word " Waterlots" so as to make the name run," Julius Cresar Augustus Waterlots Ely." Another member suggested " Colton grants." Mr Meore's amendment having been put and carried, the Clerk was requisted to read the bill as amended; by which it appeared that the unhappy Mr Elihu Ely, Jr., had been transmogriffed into "Hubbard C. M. Julius Caear Angustus Waterlots Ely, The reading produced immense laughter, The bill then passed in regular form and Mr Ely rejoices in the desired handle to his name for evermore.

We acknowledge, O Lord, that thou heat multiplied on us blessings which Thou mightest most justly have withheld. We acknowledge that it is not because of works of right-eousness which we have done, but of Thy grant mercy, that we are permitted to come before Thee with the voice of thanksgiving, and that instead of humbling us for our offences. Thou hast given ling as for our observer I not mar given us cause to thank Thee for Thine abundant goodness. And now, O Lord, we beseech Thee to bless the work Thou has enabled us to begin, and to regard to the state of the state with Thy favor our purpose of knitting together in the heads of peace and con-cord the different nations of the earth; or the Judge sneered at the 'best we can get' policy. > KIMBALL Union Academy .- The Suring Term of this excellent institution, closed with appropriate acrosses, on Tuesday evening last.

The exercises were opened with an appropriate prayer, by the Rev. Mr. Tenny; after which, the Glee C ub treated the audience with one of their beautiful and touching songs. The first young gentleman who presented a theteorical exercise, was Ma I. N. Barnes, of this village. His subject was 'Hungary-its fale and desert.' A noble theme certainly, and very well managed by our young friend. Some twenty young gentlemen followed, of whom we should be happy to speak, if time allowed .-We may say, however, in all candor, that they each and all acquitted themselves, in a manner, highly creditable both to themselves and to the institution. Their peices were all well written and handsomely delivered. We can hardly forbear an expression of deep interest in the two vonngest orators of the evening George W. Dougherty, is a lad some 14 years of age. His subject was Benedict Arnold and Major Andre."-A soul-stirring theme. When the little fellow ascended the stage he seemed much abashed, on meeting the gaze ol the crowd before him. The muscles of his face quivered, and there was, obviously, a strong internal struggle, but he determined to conquer or die.1 He commenced, in a tremulous voice, and shortly obtaining entire-self control, delivered a most interesting and effective address; on some points he was not historically correct, but the composition was excellent, and the delivery uncommonly good. Samuel A. Doncan, chore as his theme, 'Our nation's origin and greatness.' He too, is a lad of fine promise. The silvery tones of his voice, his manly bearing, and his well prepared oration, won for him golden opinions. The exercises of the evening received the undivided attention of a closely packed company, for a period of some four hours. The intercet of the occasion, was greatly heightened by the admirable music of the 'Glee Club.'-During the singing of each piece, the most entire stillness prevailed. The dosing song, 'Good Night,' the richest and best of all, was performed in excellent taste, and with fine effect.- Clare-

"A GREAT MEDICINE."

"We have uniformly refrained from recommending to the public any of the various Platest Medicines of the day, unless thoroughly convinced of their value. Among those we consider worthy of notice is the Gorseas Biliters, invested by Dr. Hoolland, and prepared by Dr. Jackson, in Phila delphia. Due instance in particular, in which the superior virtues of this medicine has been tested, has fallen under our observation. During the last nummer, a son of Mr. Abrahara Crabill, of this county, was very seriously afflicted with Liver Complaint, and after trying in vain various remedica, be purchased a bottle of the Bitters, and after using it, was so much reflected of his distressing malady, that he procured another bottle, and is restored ventired to "health".
